U.S. PACKAGING EQUIPMENT, LLC VacuMove

VERSATILE VACUUM LIFTER

VacuMove - The Flexible Lifter

VacuMove is the original vacuum lifter that lifts, lower, rotate and tilt loads using vacuum. Makes lifting easy and safe in all possible working conditions for both the operator and the product, in manufacturing and mechanical processing, warehouses and distribution centers.

VacuMove can handles almost any type of load. There are 12 models for lifting sacks and boxes, sheets, panels, crates, bales, drums and much more upto 600 lbs.

The extremely smooth and quick operation is accomplished by using the same handle to lift, lower and release the load and by using the vacuum to hold and lift the load. Based on a unique concept, VacuMove has over the years been developed with the help of customers and VacuMove lifter users into a versatile and ergonomic system for simpler, safer and more effective lifting.

You easily get return on your investment; a two-man job can often be carried out by one operator with VacuMove. This lifting system is simple to adjust to suit loads and requirements of most industries. With VacuMove you achieve a combination of efficiency, ergonomics and economy that can not be matched by any other lifting system.

Model	VM80	VM100/120/140	VM160/180	VM200/230	VM250	VM300
Lifting capacity lbs	45	65/90/110	125/175	220/265	400	600

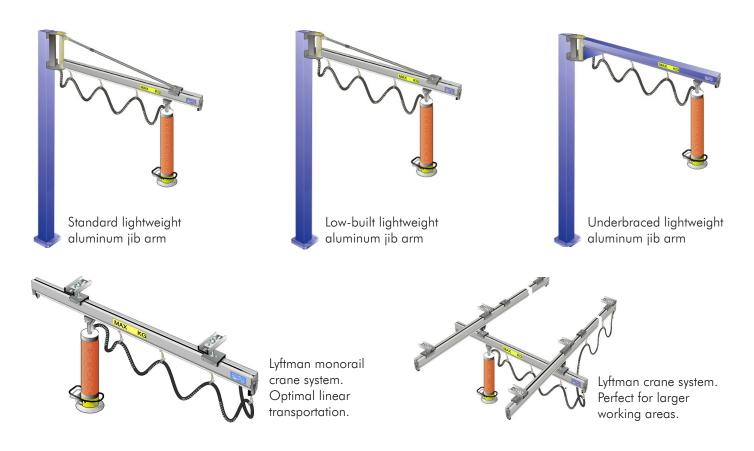

General Description

Standard						
No	Description					
1	Air filter standard					
2	Vacuum pump					
3	Column for Lyftman jib arm					
4	Jib arm					
5	VacuMove vacuum lifter					
6	Air tube					
7	Suction foot					
	Options					
No	Description					
8	Silencing hood
